

**FUTURE GERMAN  
ARMY WILL NOT  
EXCEED 100,000****Voluntary Enlistment  
Plan Will Be Used  
To Provide Men.**

By Associated Press Leased Wire  
Paris, Monday, March 10—(Delayed)—Military Germany will go out of existence as the result of the adoption by the supreme council tonight of the military terms of German disarmament as they will go into the peace treaty. These terms provide for a sweeping reduction of the German military establishment down to 100,000 men with 4000 officers, the army to be recruited by the voluntary system for the period of twelve years. The effect of this is to limit Germany's military strength to less than the number of men Switzerland has in her army.

Other provisions in the military terms limit the arms and munitions Germany may possess to a quantity sufficient for 100,000 men, and all the remainder must be delivered over or destroyed. The German forts along the Rhine also must be destroyed. The imperial general staff is abolished as the result of reducing the force.

Discussion of the subject was resumed by the supreme council today, the basis for the debate being Marshal Foch's report on Premier Lloyd George's proposal to reduce Germany's armed force from 200,000 as had been suggested, to 140,000 men and to substitute voluntary for compulsory service.

**Conscription Plan Dropped**  
Marshal Foch favored the change, as the conscription plan providing for 200,000 men serving one year terms would have given Germany a trained army of 2,000,000 men in ten years.

As against this Lloyd George proposed to fix the enlistment term at twelve years. Marshal Foch embodied this in his report, which proposed an army of 140,000 men, but the council finally adopted an amendment further reducing this figure to 100,000.

One of Premier Lloyd George's main purposes in substituting voluntary service for the conscription system was to pave the way for the disappearance of the conscription system throughout Europe, as it was believed that the effect of the abolition of the system in Germany would be that the other European countries would generally follow it, thus ending the menace of large standing armies and their provocation toward warfare.

The council has already adopted the naval terms of the treaty except for a few reserved provisions, which will be discussed tomorrow.

**Treaty Ready March 20**

The progress that has been made with the work of framing the peace treaty ensures the completion of the task by March 20. The first rough draft will be in readiness when President Wilson arrives in France Thursday, and the revision will be concluded before the twentieth. It is the present purpose of the peace conference to call the Germans to Versailles soon after March 20, probably from March 22 to March 25. The document then will be delivered to the German delegates and in case they are not prepared to sign it at once they will be given the opportunity to return to Germany to consider it and return for the formal signing at Versailles.

**No Debate at Versailles**  
This plan obviates the necessity of holding sessions for debate at Versailles and restricts the functions to be conducted with the Germans to the delivery of the document and their return for its signature or such other action as they desire to take.

It is known definitely that Count von Bernstorff, former German ambassador to the United States, will not be one of the German delegates at Versailles.

**Premiers Back in Paris**  
The presence of Premier Lloyd George in Paris is permitting daily conferences of the premiers of the powers as a sort of steering committee to direct the course of the main work of the conference. The session this morning was attended by Premiers Clemenceau and Lloyd George and Colonel E. M. House, representing President Wilson.

Premier Orlando of Italy will join the other premiers tomorrow and when President Wilson arrives it is expected that these conferences of the government heads gradually will take the place of the council of the great powers, which experience has shown to give too much time to speeches.

**Cables Censorship  
is Partly Raised**

By Associated Press Leased Wire  
Washington, March 11—Double censorship of cablegrams is abolished under the terms of an agreement between the United States and Great Britain made public today. The two countries agree that hereafter cable communication through the territory of either country will be subject to the censorship of the country in which the message originates.

The United States, the announcement of the agreement said, desires to discontinue cable censorship entirely, at the earliest possible moment, but "as long as the allies consider it necessary to continue the blockade it will be necessary to continue the censorship." However, every modification consistent with the blockade will be made.

**RUSS FACTIONS  
SEEK PARLEY  
WITH ENTENTE****Lithuania and White  
Russia Are Ready  
to Talk Peace.**

By Associated Press Leased Wire  
Basle, March 11—A Liban dispatch received here says that a wireless message from Moscow states that the commissary for foreign relations of Lithuania and White Russia has sent a note to the American, French, British and Italian governments asking when plenipotentiaries should go to Prinkipo Island. It is said that the commissary's note stated that there was a disposition to settle all questions relative to the situation in that part of Russia in a peaceable manner.

This is a development of the invitation sent to Russian factions by the peace conference asking that a conference be held at Prinkipo Island, in the Sea of Marmora. As a condition, precedent, it was stipulated that a truce between Russia factions should be arranged. This has not been done and recent dispatches have indicated that the plan for the conference at Prinkipo had been abandoned but that a meeting might be held at some other place which would be attended by individual Russian factions.

As against this Lloyd George proposed to fix the enlistment term at twelve years. Marshal Foch embodied this in his report, which proposed an army of 140,000 men, but the council finally adopted an amendment further reducing this figure to 100,000.

**EARLY PEACE IS  
URGED BY POPE  
IN NEW APPEAL**

By Associated Press Leased Wire  
Paris, March 11—It has become known that Pope Benedict has addressed an appeal to the powers emphasizing the urgency of the speedy conclusion of peace with Germany.

It is understood that the pontiff states that the Vatican possesses reliable information that the situation in Germany socially and economically is very grave and that he fears the spread of Bolshevism with such rapidity that it might result in the establishment of a Bolshevik state.

**Maj.-Gen. Kenley is  
Demoted by Baker**

By Associated Press Leased Wire  
Washington, March 11—Maj. Gen. William L. Kenley, director of military aeronautics, was relieved of that post today, and in his permanent grade of colonel, was ordered to report to the chief of field artillery for duty. Brig. Gen. William Mitchell will be detailed to command the army aviation service.

The change in command of the bureau of military aeronautics, it was said at the war department today, was a natural development of the reduction in that branch of the service. Very large cuts already have been made in the personnel of the aviation service and it was considered that an officer in the grade of major general was no longer needed to supervise the operations of the bureau.

**VALIDATION OF HIGH  
SCHOOL ACT SOUGHT****Bill Will Be Presented to  
Legislature to Overcome  
Court Objection.**

By Associated Press Leased Wire  
Springfield, Ill., March 11—Validation of community high school districts organized under the act of 1915, declared unconstitutional by the Illinois supreme court at the February term, will be sought in legislation at the present session. Representative Jacob R. Drake, Democrat, of Lovington, is preparing a bill to accomplish the end for introduction at once.

The supreme court held the act unconstitutional because it delegated legislative powers to county superintendents of schools.

Both houses met this morning. Under a gentleman's agreement reached last week, no bills were called up on third reading and the sessions were perfunctory. Interest centered today in the meeting of the special house committee on contested elections of which Edward D. Shurtleff of Marengo is chairman. There are no senate contests.

Senator Stephen D. Canaday of Hillsboro, announced that he would introduce a bill providing for the recording by circuit court clerks without charge, of soldiers' discharge papers, a necessary step in the issuance of soldiers' bonuses amounting to \$60 each.

**ANNEX OF MORIRSON  
HOTEL IS IN RUINS****Fire Lays Waste Dormitory  
of Hotel Employees—  
Many Overcome.**

By Associated Press Leased Wire  
Chicago, March 11—Half a dozen women fainted, as many others were overcome and these with nearly 225 men and women employees of the Morison Hotel were aided down fire escapes early today, when fire broke out in a five-story brick annex to the hotel which is used as a dormitory for the employees. The employees occupying the annex, laundry girls and a few housemen, were overcome by smoke were carried out and soon revived.

All guests of the hotel located at the south corner of Clark and Madison streets were told to leave the hotel as a precautionary measure. The fire did not reach the hotel proper, being confined to the annex on the Clark street side. The fourth and fifth floors were burned before the blaze was brought under control. The damage was estimated at \$50,000.

There were 1500 guests in the hotel, of which number about 500 left the building.

A report that two maids were missing led to a search of the burned annex as soon as firemen could enter the structure. No bodies were found.

**Tax Exemption for  
Family Covers Year**

By Associated Press Leased Wire  
Chicago, March 11—An important extension of the exemption provisions of the income tax law is contained in a ruling by Commissioner Roper made public here today. It is that the exemption for wife and children covers the whole year 1918 even if the wife were dead, or the child born, on the last day of the year.

In making the announcement Julius Smietanka, collector of internal revenue for the Chicago district, explained that while the ruling works a saving for men earning \$2,000 a year, who have married during 1918, it works against men who have lost their wives in the course of the year, for in the latter case, he said, even if the wife died on December 31, the widower would have to make his return as that of a single man for the entire year. This is equally true where a child dies, he said.

**NAME MONDELL

OF NEW HOUSE****Wyoming Man is Choice  
After Jas. R. Mann  
Declines Honor.**

By Associated Press Leased Wire  
Washington, March 11—Representative Frank Mondell of Wyoming was chosen Republican floor leader in the next house today after Representative Mann of Illinois, leader in the last congress, had been elected on the first ballot by the Republican conference and had declined to accept.

Mr. Mondell has been a member of congress for 22 years. His elevation to the floor leadership will cause him to retire from the membership of the house appropriations committee.

One hundred and sixty members voted for Mondell, 23 voted present and 55 were absent. The Wyoming member was nominated by Representative Kindred of Nebraska, after Mr. Mann had been elected by receiving 154 votes and had declined.

Mr. Mann's nomination was made by Representative Moore of Pennsylvania and was seconded by Mr. Mondell, and Representative Doherty of Wisconsin. On the first ballot there were 12 votes against Mann, two of them being cast for Representative Longworth of Ohio, whose name was not formally presented to the meeting.

**BRITAIN MAY AGREE  
TO WARSHIP DIVISION****Would Sink Her Own Share  
of Enemy Craft and Halt  
U. S. Program.**

By Associated Press Leased Wire  
Paris, March 11—A change in the attitude of the British government regarding the plan to sink interned war ships has been noticed since the return of Premier Lloyd George to Paris. It now appears probable that instead of the German craft being sunk, Great Britain will be willing to permit to France and Italy to keep some of the ships, but will consent to sink her own allotment. In this way, it is said, Great Britain would relieve the United States of the necessity of carrying out her projected great naval building program which, it is understood, was based on the intention to prevent a by one nation from having such a predominant navy as would give her control of the seas against the powers of the league of nations.

The addition of a limited number of the German warships to the French and Italian navies would not sensibly disturb the present balance of naval power, excluding Austria and Germany.

**Senate Probers to  
Get Report on Reds**

By Associated Press Leased Wire  
Washington, March 11—Evidence gathered by the postoffice department through seized mail matter, showing activities of the I. W. W., anarchists, Socialists and other radicals since the signing of the armistice, was to be read today into the records of the senate committee investigating lawless propaganda. It was offered in the form of a memorandum, and in the form of supporting excerpts from mail matter.

The memorandum which was made public by the committee late yesterday asserted that the radical elements of the country had for the first time "found a common cause upon which they can unite" in Bolshevism. The I. W. W., Solicitor Lamar charged, were active in the support of this "common cause" through the organization's field force of recruiting and subscription agents. He said the excerpts submitted would show that the propaganda had as one of its objects a "nation wide reign of terror."

Pending a definite decision, construction of six 35-knot cruisers, already authorized, will be suspended under an order by Secretary Daniels published today.

Very little work has been done on the six cruisers, although contracts were let two years ago, as during the war naval construction was concentrated on destroyers and merchant ships.

By Associated Press Leased Wire  
New York, March 11—Amelia E. Barr, the authoress, died last night at her home in Richmond Hill, this city.

Mrs. Amelia E. Barr passed the first half of her life in comparative obscurity. She ventured upon her first novel when she was 50 years of age. During the following 33 years she produced her books at the rate of about two a year, until she had 63 to her credit.

Tragedy came early in her life. She was born in Ulverston, Lancashire, England, in 1831, with the name of Amelia Huddleston. As a little girl, she lost three young brothers in quick succession by death. Then came straitened finances for the family. She set out as a teacher to earn her own livelihood. Finally settling in Scotland, she met and married at the age of 19 Robert Barr, a young Scotch mill owner. Barr soon lost his mills and money.

The young couple came to America in 1853, to start life anew. They lived and worked in Chicago, Memphis, Harrisburg, Tex., Galveston, and Austin. Mrs. Barr helped out by teaching school.

**Army Gas Masks Are  
No Good for Miners**

By Associated Press Leased Wire  
Washington, March 11—Another warning that army gas masks, developed for protection against the poison gases of the Germans are almost worthless in civil employments, was given today by the bureau of mines as the result of reports of injuries to firemen and miners, who have attempted to use the mask in their work.

Director Van H. Manning pointed out that it was particularly dangerous to use the army mask where gas was confined, as it was intended for use in the open.

"The field of civil usefulness of the army mask," Mr. Manning said, "is confined to certain chemical industries, around smelters and roasters, where sulphur fumes are given off, and in industries using chloride and bleaching powders."

**EX-KAISER WILL  
BE BRANDED AS  
ARCH CRIMINAL****Nations of World Ask  
Germany to Subscribe  
to Decision.**

By Associated Press Leased Wire  
Paris, Monday, March 10—(Delayed)—It will be the fate of former emperor William to be branded for all time as an arch criminal by the solemn declaration of all the nations assembled at the peace conference, to which even his own country may be called upon to subscribe in the peace terms, according to the present plans of what is believed to be a majority of the committee on responsibility for the war.

The report of this committee will be ready within a few days and the indications are that the members are harmonious on the main points. There are likely to be differences, however, regarding subordinate German officials, although at present a majority of the committee is understood to hold that they can be punished for orders given or acts permitted by them in violation of the national laws of Germany or the rules of war. Such a rule would apply to the officers who executed Captain Fryatt, but not to the executioner of Edith Cavell, who, it is pointed out, might have been technically guilty of espionage. No doubt is felt as to the liability to punishment of a German officer taken prisoner of war and found guilty of atrocities.

Another piece of propaganda declared "Every strike is a small revolution and a dress rehearsal for the big one."

Such publications as The Liberator, The International Socialist Review, The Red Dawn and The Class Struggle were quoted from at some length by Major Humes in completing the record. Hand bills said to have been distributed by the I. W. W. during the recent strike in Seattle were among the exhibits as were recent pamphlets written by various agitators, whose names have been associated with various disturbances in the United States during the past few years. Upton Sinclair, Elizabeth Flynn and a dozen others were quoted from.

**C. A. BRYAN NEAR  
DEATH; HIS TEAM

C. A. Bryan, 723 E. Morgan street, had a very narrow escape from death or serious injury late Monday afternoon when his team of horses was struck by westbound Northwestern passenger train No. 19, due in Dixon at 3:36, at the Ralph Lahman crossing, west of Natchua. Both horses were so badly hanged that they had to be shot, but Mr. Bryan, was not even thrown from the wagon.

He had been transacting business at the Lahman farm, and started for home at about 3:30. Mr. Lahman driving a team to an open wagon out of the lane ahead of him. Neither driver heard the approaching train because of the high wind from the west. Mr. Lahman drove across the tracks with Mr. Bryan following, when suddenly the big locomotive plowed into the team.

The tongue of the wagon was broken off and the horses were dragged a considerable distance. One animal suffered fractures of both front legs and the other was badly cut about the head and shoulders.

**OVERTHROW U.S.  
GOVERNMENT IS  
URGED BY REDS****Senate Probers Given  
Evidence of Great  
Radical Plots.**

By Associated Press Leased Wire  
Washington, March 11—Evidence, gathered by the postoffice department and the department of justice, showing a country-wide radical propaganda urging overthrow of the United States government by violence and the setting up of Bolshevism was put into the senate propaganda investigating committee's record today by Maj. E. Lowry Humes, counsel for the committee.

The documents included a memorandum submitted yesterday by Solicitor Lamar of the postoffice department, asserting that the I. W. W., Socialists and other radicals in this country, had found a common cause for the first time in Bolshevism. With the memorandum were excerpts from radical publicity which demonstrated a bloody revolution and a reign of terror were contemplated.

One of the department of justice exhibits was an anarchist poster which appeared recently throughout New England. It was described as a typical piece of red propaganda. It denounced the proposed alien radical deportation law and said among other things:

"Deportation will not stop the storm from reaching these shores. The storm is within and very soon will leap and crash and annihilate you in blood and fire."

Another piece of propaganda declared "Every strike is a small revolution and a dress rehearsal for the big one."

Such publications as The Liberator, The International Socialist Review, The Red Dawn and The Class Struggle were quoted from at some length by Major Humes in completing the record. Among editorials put into the record was one by Arthur Brisbane in the Washington Times, discussing photographs of Russian Bolsheviks published by the New York Times.

Traveling as a casual on the Mount Vernon was Brig. Gen. James D. Glenan.

The steamship Ohioan arrived from Bordeaux with 1,627 troops, a majority of them of the 348th infantry of the 87th division.

Officers on the Mount Vernon included Lieut. Earl Garvin of Clinton, Iowa, who was awarded the French war cross for distinguished service with the Fifth regiment of marines.

**Massachusetts Towns  
Dry 25 Years, Now Wet**

By Associated Press Leased Wire  
Boston, March 11—Returns from eleven towns that voted yesterday on issuing liquor licenses show that eight changed from dry to wet. Three south shore towns Weymouth and Hingham, which have been no license places for more than a quarter of a century, and Scituate, with a dry record of eleven years, shifted to license.

Liquor advocates maintained that the result was a protest against the national prohibition amendment while Anti-Saloon leaders asserted that it was mainly due to apathy on the part of the voters. Three towns, Amesbury, Needham and Amherst voted to remain dry.

## NEUTRALIZATION OF AUSTRIA DISCUSSED

### Proposition is Before the "Big Five" with Much Opposition Already.

By Associated Press Leased Wire  
Paris, Monday, March 10.—While the possible neutralization of Austria has not as yet come before the "big five" in a formal manner, it is being discussed. Certain Socialist elements in Austria are striving hard to prevent neutralization but there are other influences which are anxious to see it effected as it would give Austria protection similar to that enjoyed by Switzerland.

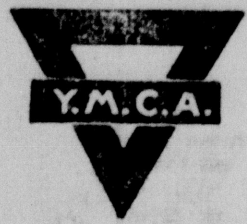

The proposed union of Austria with Germany is presenting many difficulties and German interests are endeavoring to effect a division of Austria so that the German section may be annexed. Many of the members of the entente are now unfavorably disposed toward the neutralization of any part of Austria, as it is regarded as undesirable and embarrassing to a country seeking membership in the league of nations. Switzerland's neutralization presents many problems to the supreme council as her status would be uncertain, should she be admitted to the league still retain her neutrality as she desires.

There is a possibility, however, that the peace conference will consider the neutralization of the Austrian Tyrol, which would afford protection to the northern Italian frontier.

### Preliminary Session Adjourned Because of Certain Changes.

By Associated Press Leased Wire  
Paris, March 11.—Like the international wireless conference, which assembled here several weeks ago, a similar gathering which was intended to deal with problems relating to aerial navigation, has been compelled to postpone its work indefinitely after having merely perfected its organization. The suggestions of extensive plans which were to be brought forward for consideration developed the fact that most nations might be obliged to make wholly unexpected changes in the fundamental laws if they participated in discussions. This necessitated the reference of many problems to home governments and, it is understood, that it will require consideration of many months before delegates will be able to proceed with the conference.

The air conference was to be merely a French, and possibly a British, affair. The delegates to the peace conference were quick to see that what amounted to a control of aerial navigation might be involved in the discussions of the conference and lost no time in demanding that their nations be represented.

## New Ford Company to Employ 200,000

By Associated Press Leased Wire  
Detroit, Mich., March 11.—Plans of Henry Ford for a new company to produce a lower priced automobile than any at present extensively marketed, contemplate employment of possibly 200,000 workmen when in full operation, the motor manufacturer said today on his return from Los Angeles.

Mr. Ford stated that the new corporation will in no way interfere with the present Ford motor company; that he had no intention of relinquishing control of the majority stock of the old company and that he was not in the market for a single share owned by other stockholders.

Mr. Ford indicated a year may be required to perfect the organization and production plans.

## TO HOLD EXAM FOR TWO RURAL MAIL CARRIERS

The U. S. Civil Service commission announces an examination to be held at Dixon, Mendota and Rochelle on Saturday, April 12, to fill the position of rural carrier at Steward and West Brooklyn, the test being open only to male citizens who are actually domiciled in the territory of a post office in the county.

The vacancy at West Brooklyn for which this examination is announced is caused by the enlistment of the carrier formerly employed on the route. Upon his honorable discharge from the military service of the government he will be entitled to reinstatement to his former position as carrier on this route.

However, any person appointed to this position may, in the discretion of the post office department, be assigned to other parts of the postal service, or transferred to other branches of the classified service for which he is eligible.

## Five Years Needed to Complete Tunnel

By Associated Press Leased Wire  
London, March 11.—Five years would be required to complete the proposed tunnel under the English channel from England to France, according to an authoritative estimate. It is said that in view of the increased cost of labor and materials, the expense involved would, under present conditions, be nearly 20,000,000 pounds Sterling.

### SAVE YOUR BUTTONS.

Washington, D. C., March 11.—The "button situation" threatens to become embarrassing. The supply is running low, according to B. S. Cutler, chief of the bureau of foreign and domestic commerce. Housewives were warned to save all buttons. Without economy in button "consumption" the nation may soon find itself on a pin and belt basis.

T. J. Knauer of West Brooklyn is in Dixon today on business.

## LADIES ESPECIALLY INVITED TO OPEN HOUSE.

See Davis through The Telegraph extends a special invitation to all the ladies of the city to attend the "open house" at the association room on Thursday evening. The festivities of the evening will not begin until 8 o'clock, which will allow any who wish to attend the banquet of the Ahrens' Sunday school class at the M. E. church an opportunity to attend both events. The best bowling team that can be gotten together in the local association will be ready to tackle the Sterling association team, which because of victories over hurriedly picked-up Dixon teams has gained the idea it can really bowl, and the Dixon volley ball team will also be on the job against a Sterling aggregation.

### WOMAN'S CLUB MEETING—

The Household Science Department had charge of the program given at the meeting of the Woman's Club on Saturday afternoon in Miller hall.

Miss Myrtle Rice sang a double number, delighting her hearers as usual.

Mrs. A. C. Hibarger had the paper of the afternoon on "The Buffalo Moth." The paper was well given and showed much research on the topic. In part, she said:

"There are two species of carpet beetles in the United States. It is the larvae of grub of these beetles that really do the mischief. The larvae of one of these carpet beetles has come to be known as the buffalo moth. It was first noted as a serious pest in this country about 1847. It is an especial pest in museums, causing considerable injury to specimens."

"The adult insect is a small beetle about three-sixteenths of an inch in length, black, spotted with white and red. These beetles feed on the pollen of flowers, on spiraea and wild cherry blossoms. The eggs are laid by the beetle among the fiber of cloth upon which later the larvae will feed. They hatch in ten days or two weeks. The earliest beetle appears in the fall, usually in October, and continues to appear in well warmed houses all during the winter and spring months."

"This insect will always be hard to control in houses which have carpets tacked to the floor. It is said a solution of 60 grains of corrosive sublimate, dissolved in one pint of alcohol put along the edges of rugs and carpets will poison the larvae. They may be trapped by placing small pieces of red flannel in closets. First of all it should be understood that the odor of camphor balls, cedar or naphthalene have no killing effect on the moth. Sunlight and air are the best protection from moths."

"Insect pests alone in this country cause a loss of over a billion dollars annually."

and Mrs. E. H. English, Miss Gertrude Castle, and Max Eichler. The guests, including only members of the lodge, numbered one hundred and ten. Mr. and Mrs. English are to leave soon to take up their residence in St. Louis, Miss Castle is to become the bride of Mr. Irve Petty, of Mt. Carroll, and Mr. Eichler is entering upon the seventeenth year as treasurer of the order. The members were especially happy to do honor to each, but were regretful that Mr. and Mrs. English are to leave Dixon. Early in the evening Mrs. Adolph Eichler presented Mr. Eichler with a handsome set of gold cuff links as an appreciation of his services by the lodge and Miss Castle was led to a table, which from its adornment could be intended for the inspection of no one else, as wedding bells and a canopy of white crepe paper hung above it. Mrs. Woolley and Miss Alma Moeller assisted the bride in unwrapping the gifts with which the table was piled high—substantial and handsome gifts in cut glass, linen, etc., for the new home to be made. A stanza of poetry accompanied each parcel and was read by Miss Castle as the gifts were displayed. Refreshments were served and games of "500" and bridge enjoyed by some, while others devoted themselves to dancing, with the Heft-Slothower orchestra furnishing the music.

**COUNTY S. S. CONFERENCE ON SATURDAY**

A County Conference of Sunday School workers is to be held on March 15th, at 2 p. m. in the Dixon Y. M. C. A. building for County and Community S. S. Association officers and all others who wish to attend. We hope that all parts of the county will be well represented at this meeting next Saturday.

The Illinois State S. S. Association offered a silk banner to any county in the state which would reach a certain standard adopted at that time, and Lee county was the first to send in the required figures and was one of nine counties to receive recognition that year. This was in 1913, and our county has kept front line position ever since, adding a year to its banner at each state convention. Now new standards have been adopted, a great improvement and much higher than the old, and Lee county workers intend to reach them with the first counties in the state. The county conference is to plan for this, and also to receive the official invitation from the town where our Lee county convention is to meet in May, with other important and interesting topics.

**Make Best Use of Time.**

Every man has the same chance in the use of time. One may be faster than another, but there are usually compensating conditions that equalize things. Not always to the swift is the race. Many a tortoise has beaten hares in life. It's the use of the hours that counts. Make the minutes hum with well directed industry and you have a profitable life in the making. It's every man's right to make the most of himself. He does this by his use of the minutes.

**COMB SAGE TEA IN**

**FADED OR GRAY HAIR**

If Mixed with Sulphur it Darkens so Naturally Nobody can Tell.

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

## The Promoter's Wife

By JANE PHELPS

### MR. FREDERICK'S WORDS WORTHY BARBARA.

CHAPTER XXXVIII.

Why had Payne Orton had to die? Had he lived, Blanche would still be bound. Dead, it left her free to intrigue my husband.

Mr. Frederick spoke to me. I heard his voice, but did not grasp anything he was saying. My mind was numb with the thought that had come to me.

Had Payne Orton, before he died, known of the intimacy of his wife and Neil? And had it made him careless of his health?

It was an hysterical woman's thought, but it gripped me. That he had been ill for long, that scarcely ever had he been able to accompany his wife anywhere since I had known them; that this illness might have been caused by an added cold, never occurred to me. As nearly all women would have done, I took his sudden death to mean something to me simply because my husband had shown a preference for the man's wife.

"What are you thinking of, that you won't speak to me?" Mr. Frederick's voice brought me back to a realization of my rudeness.

"Pardon me. I was so shocked by what you told me that I was most impolite. It is dreadful! dreadful!"

Payne Orton's love for his wife was a matter of common comment among his friends. Could it be possible that, because of some intrigue of hers, he had WANTED to die? And was Neil the other party to the intrigue?

I tortured myself with the thought. Mr. Frederick was a shrewd man and doubtless understood more of the cause of my answers to his questions than I realized.

Finally he commenced to talk of Neil. Then I pulled myself together. Anything pertaining to my husband was vitally interesting to me.

"He has wonderful staying powers. We all have to hand it to him for one thing," said Mr. Frederick, "if he makes up his mind to do anything he will go through fire and water to accomplish it."

I thought I detected some subtle desire to comfort me by this praise of Neil—if it were praise. I would put my pride in my pocket and ask one or two questions.

"Tell me about that Mr. Scott—the man interested in Mexican mines. I spoke as casually as I could."

"Do you know him?"

"Yes—he dined with us one night."

"I shouldn't say he was—your sort. Not that Scott isn't all right as far as some things go; but he's hardly a man I would want you to meet."

The words had scarcely left his lips before he flushed and stammered an apology:

"I had no right to say that! Your

husband is the one who has the right to say who you shall or shall not meet. Forgive me."

"There is nothing to forgive—Neil, Mr. Forbes, is connected in some business matters with Mr. Scott and that is the reason he brought him home with him. But he seemed such a different type from any man I have known, that I was curious." As usual, I had not the courage to go on with anything that looked like criticism of Neil.

I often used to wonder if all wives were as fearful of doing anything to lose the love of the man to whom they were married, as was I. I seemed to realize from the first days of our life together that Neil would brook no questioning of himself, his affairs. Every time I had attempted to get closer to him in this way it had resulted disastrously, had been the cause of the only quarrels we ever had.

"He is a different type. Coarse, common, but absolutely straight in business. And hard as nails with those who are not. I have always said that I should be very sorry for anyone against whom Scott had a grudge. He'd flay them alive."

"That is the way he impressed me," I returned, then changed the subject. But in my mind was a new undercurrent of fear. Suppose this Mr. Scott should get a grudge against Neil because of some business they had in common—suppose because of that mining stock Neil had persuaded him to buy?—my thoughts went no further. Mr. Frederick commanded my attention.

Tomorrow—Mr. Frederick Offers to be Barbara's Friend.

## DON'T DELAY.

The chance of many of our boys coming back from the service to a jobless greeting, while not exactly alarming, is becoming more and more serious. In addition, various classes of labor are being thrown out of jobs through cessation of the activity of the war industries. The result is that labor is coming to market a bit faster than it can be absorbed. This process is gradual, but if we look ahead a little we can see the possibility of danger.

This country is prosperous enough to offer employment to every man who is willing and able to work. The labor market that was or is being closed by the stopping of war industries can easily be shifted into other activities. That is why the government is officially urging the immediate undertaking of all construction work which was postponed or neglected on account of the war. The easiest way to find jobs is to start right in to do all necessary building now.

There is both opportunity and need for the building of new homes, farm buildings, schools, churches, roads, etc.; for much of this activity has been woefully neglected during the last five years. While the same old tendency of delaying for lower prices still exists it is coming to be seen to be a tendency that has no promise of benefiting the man who waits—he is much more likely to let the profitable opportunity slip—it has in it at the same time a threat of increasing unemployment and breaking down the existing prosperity.

Building materials are remarkably steady in price, and because the supply is low for the demand, will decrease in price far more slowly than other stable articles.

Of course, prices on building materials might be forced to decrease. But, to force them down the public would have to stay inside its shell for a couple of years yet and refrain from all building projects. What havoc would be wrought! Nothing is more detrimental to the prosperity of the country than sizable amounts of unemployed labor.

Building activity supports many other activities. When you decide to build a new house, a new garage, or a new barn, you contribute your share, for instance, toward making a new job for Private Jones, experienced bookkeeper, in some contractor's office, or perhaps in the factory that makes the door hinges. It all adds up. It all adjusts itself. One thing leads to another and jobs of every description and variety are made at every step along the line. Labor has the leading place in production; the more production, the more need and use of labor, and the more prosperity all along the line. Labor makes the wheels of prosperity go round. Don't hold it back.

Build your new home, your barn or farm building right away. Not because you feel philanthropical, but because you really need to build. If you don't need to, don't build. But if there's building of any nature you are deliberately postponing, you are just making it that much harder for yourself and every one else.

## LOOK THEM OVER.

Today's city primary will trim the field of candidates for mayor and commissioners to two candidates for mayor and eight candidates for commissioner. The next city election comes April 15 and at that time the voters must decide who is to manage the city's affairs for the next four years.

Size up the men who are left in the race. It is important to Dixon's future that the best available officers are selected.

One little thing that the next city commission can do to help dress up the city is the erection of neat metal street signs on every corner. Hardly a street in the city is marked now, and signs that remain are worn and battered wooden affairs with the paint washed off and usually hang by one nail.

## Wedding Custom From France.

The custom of wearing orange blossoms at weddings is of comparatively recent date in this country. It came to us, like most other fashions in dress, from the French, who in their turn derived it from Spain. In the latter country it had long obtained, and is said to have been of Moorish origin.

## SPARTACANS HOLDING OUT IN LICHTENBERG

## Government Makes Preparations to Attack Red Stronghold in Force.

By Associated Press Leased Wire

Berlin, Monday, March 10—(Noon)—Government troops were busy today in driving Spartacan bands from various sections of Berlin, and in preparing for a determined effort against the Spartacan stronghold of Lichtenberg, a suburb to the east of the city. Government troops sent to Lichtenberg Sunday to protect the postoffice and police station were annihilated by the Spartacans.

All the soldiers and police officials who were not killed during the fighting for the postoffice and police station or who did not escape from the buildings were murdered by the Spartacans. Many were tortured and killed in the streets. The number of persons killed in the present uprising is believed to exceed 150.

Reports of Spartacan atrocities continue to pour in and resulted today in the issuance of an order by Herr Noske, minister of finance, that all found opposing the government troops with weapons would be shot immediately. Many Spartacans were taken prisoner during the forenoon and summary executions begun at once, the order of Herr Noske being welcomed by the embittered government forces.

## RIGA NOT CAPTURED

By Associated Press Leased Wire

Copenhagen, March 11—The recently reported capture by the Germans of Riga on the Baltic coast, is denied in a Berlin dispatch received here. The German troops, it is stated, are still a considerable distance from Riga.

The report of the capture of Riga reached London March 7, in a dispatch to the Daily Telegraph. The German troops were said to have severely defeated the bolsheviks and taken the city.

## SPARTACANS MOVE STRONGHOLD

By Associated Press Leased Wire

London, Monday, March 10—(Delayed)—German government troops in Berlin made further progress during Saturday and Sunday in demolishing Spartacan strongholds in the northern and eastern sections of the city, according to a German wireless message received here. The troops used artillery and mine throwers to force the insurgents back without exposing themselves. Nevertheless, the Spartacans have not given up and are attempting to transfer their field of resistance to the eastern suburbs. The dispatch says that their terrorist methods have caused a revulsion of feeling in favor of the government everywhere.

## FORMER KING NEARLY DROWNS

By Associated Press Leased Wire

Geneva, Monday, March 10—(Delayed)—Former King William of Wurtemberg had a narrow escape from drowning today during a scuffle that occurred when a party of German sailors from Kiel seized the ex-king's yacht on Lake Constance. The sailors took the yacht to use, it as a fishing boat.

Disorders along the Rhine towns, not under allied occupation, are continuing. The German and Austrian consuls have been withheld from the Lake Constance territory because of the hostile attitude of the neighboring peasants.

## Auto Thieves Can Not Evade This Law

By Associated Press Leased Wire

Jefferson City, Mo., March 11—Protection to automobile owners is provided in a bill, favorably reported by committees from both houses and announced today. The transferable license is provided but it will not become effective until January 1 next.

Any one caught in possession of an automobile who cannot produce a license or a transferred license will be presumed in law to have stolen the car.

## NEW MEMBER ON BOARD.

The regular March meeting of the county board of supervisors was called order this afternoon at 2 o'clock. Roy W. Gooch of Lee Center township appointed to fill the vacancy caused by Kyle C. Miller's moving to Amboy, was concurred in by the board and the new member seated.

A proposition is to be presented to the board at this meeting for final action that has been considered several times. Sheriff Schoenholz will ask the building committee to provide a private office in the big room now used as the sheriff's office. This matter has been discussed by members of the board for about a year but at no time has any formal action been taken. The members appear to favor the improvement as Lee county is one of a very small few in the state to provide its sheriff with a private office for the transaction of such business as may come before him.

## ENTERTAINED QUEEN ESTHERS

Made an annual feature, the meeting of the Methodist Home Missionary Society at which the members of the Queen Esther Society members are entertained, is always an enjoyable occasion, and the meeting held last evening at the home of Dr. and Mrs. C. H. Ives was no exception. Seventy-five availed themselves of the opportunity of enjoying the excellent program and delightful social evening which always results.

The regular business session of the society, made brief because of the program which was to follow, was held. Miss Rilla Webster, as reader, Mrs. A. D. George, Miss Evelyn Street, and Miss Josephine Lievan, as vocalists, furnished the program.

Miss Webster's readings were: The Squire's Opinion, and "Old Glory," with suitable encores. Both were given in Miss Webster's always happy style, and delighted everyone.

"Eventide," by Gilbert Loewe, and "A Necklace of Love," by Ethelbert Nevin, the latter given as an encore, were the two beautiful numbers contributed by Mrs. A. D. George to the program. Mrs. Grover accompanied Mrs. George with piano music.

Miss Evelyn Street's numbers were: "Somewhere a Voice is Calling," by Arthur T. Tate, and "It Isn't Raining to Me," by Harding. They were rendered most charmingly. Miss Keyes furnished the piano accompaniment for Miss Street and also for Miss Josephine Lievan, who also gave some beautiful vocal selections.

The gentlemen's first prize went to John Halbmaier, the second to Frank Delhotal, and Joseph Kuchnea was consoled for low score. A very appetizing luncheon was served at a late hour. ## Can Now Send Money Orders to Belgium

United States money orders may now be sent to all parts of Belgium, according to a notice received at the local postoffice and which became effective March 10. This practice was discontinued to a considerable extent for the duration of the war, although the postoffice department has at all times permitted the mailing of money orders to any country occupied by the A. E. F. Belgian residents in this country were refrained from sending the money orders until the receipt of the recent notice.

## AMUSEMENTS

## THE BIRTH OF A RACE

"The Birth of a Race," which will be presented at the Dixon opera house is described as "a patriotic story of brotherhood," its episodes covering all the ages from the creation of earth to the peaceful era just dawning. It comes intact positively the same production that was seen at the Blackstone Theatre and Playhouse, Chicago, where it enjoyed long runs at both houses, in fact, Chicago was the birthplace of "A Birth of a Race." Realistic photoanimation, photoanimation, possibly the most wonderful ever accomplished. A large symphony orchestra has the fine musical score in hand.

"The Birth of a Race," the big photodrama masterpiece, which was seen in the "loop," Chicago, for a long and prosperous engagement recently at the Blackstone and the Playhouse (will be the attraction at the opera house on Tuesday and Wednesday, matinees and nights, March 18 and 19.

The production which accompanies this wonderful photoplay requires a special baggage car to carry it on its tour and it is the same in every particular as shown at the above mentioned theatres, in Chicago. Therefore, the dramatic values which are brought out by the effects will enhance the value of this picture marvel during its engagement here. The production also includes a large symphony orchestra.

E. D. Alexander returned home last evening after a two weeks' vacation spent at Hot Springs.

## Name New Ships for Two Illinois Cities

The cities of Rock Island and Moline will be honored by having their names carried by two of the new vessels of the Emergency Fleet Corporation, having won this honor as a result of securing the greatest percentage of subscribers to the Fourth Liberty loan. The government offered as a prize to each of the five states in the Seventh Federal Reserve district the honor of having the new vessels named after the two cities of 10,000 population or over in each state making the best percentage showing based on the census of 1910. Rock Island established a record of 69 per cent distribution, with Moline a close second with a mark of 68 per cent.

Arrangements soon will be completed for the launching and christening of the new vessels, and it is expected the launchings will be the occasion of formal ceremonies with committees appointed to represent each of the cities. The committees will include members of the Liberty loan organization in each of the cities naming the honor ships.

In all of the four loan campaigns the county of Rock Island has had two separate Liberty Loan organizations, Rock Island east, including Moline and Rock Island west including the city of Rock Island. Both of the county organizations always have given a splendid account of their stewardship, and in every loan both districts have largely oversubscribed their quotas.

G. W. Johnson of Franklin Grove was a business visitor in the city today.

What Is the Difference?

"Price" is the figure you see written on the price tag—what you actually pay in dollars and cents at the time you purchase.

## ILLINOIS COMMITTEE READY WITH WELCOME

**Volunteers Are on Big Body  
of Citizens in New York  
to Meet Troops.**

**33RD COMING SOON**

By Associated Press  
Springfield, Ill., March 11.—The stage is all set in New York for welcoming Illinois boys home, Governor Frank O. Lowden said today in discussing the activities of the Illinois Welcome Committee which he recently appointed, and which has opened headquarters at 15 West 45th St., New York.

Members of the Rainbow Division, to which the 149th field artillery from Illinois is attached, the Prairie Division, consisting almost entirely of Illinois National Guardsmen, and numerous other units are expected home in the next few months.

"All Illinois soldiers returning will be made to feel right at home the minute the boat ties up," said one official today.

The committee is a volunteer body. The governor sent hundreds of invitations asking co-operation in the project. Among the first acceptance was that of Judge Elbert H. Gary, former Illinoisan, chairman of the United States Steel Corporation in New York. He is chairman of the committee. Cecil Page, New York, is vice-chairman and secretary.

Have Three Duties.  
There are three sections of the Welcome Committee. The Hospital and Relief committee will visit the sick, and look after their comfort generally while in New York. The Host and Hostess committee will attend headquarters at stated hours to visit with and advise the men. The Miscellaneous Outside Work committee will attend all general public functions given for the boys; install suitable banners of welcome across streets through which parades pass, and collect information regarding movements of Illinois fighters in and about New York City.

The headquarters is given a home-like atmosphere by display of banners and pennants bearing names of Illinois schools and colleges and various clubs and other organizations. A file of a thousand newspapers will be available to the returning boys. Arrangements have been made by Joseph C. Mason, administrative auditor of the department of finance, with more than 800 state papers to place headquarters on their mailing lists.

## Mysterious MacLean

By W. T. ELDRIDGE

Copyright.

The Frank A. Munsey Co.

Some way he scented a trick, and yet for the life of him he couldn't see what object the man could have unless he spoke the truth.

He had had no time to talk with Trench. The politician had done his telephoning, appeared indifferent to the fact that Cruthers had escaped, written a note for Kingsbury to hand to the police when they arrived, and taken his hurried departure.

Once the police were in charge of the Sweetwell home, Kingsbury had hurried to the hotel, hoping for some word from Marjory Holcomb; for Trench had mentioned, as he went out the door, that his niece's friend had inquired where she could find Kingsbury. But now, with the chance to get some information concerning MacLean, all other thoughts were driven from his head. Yet he did not permit himself to appear to anx-

ious. He questioned his caller at length, but in the end, apparently satisfied, he hurried with the man to the street and hailed a cab.

As their conveyance turned away from the curb in front of the hotel, an automobile swung after them, but that fact went unnoted by both men, still busy with questions on one hand and answers on the other.

At a point some distance from Concord the carriage was deserted, and Stone motioned down the road. Side by side the two men hurried into the night. The road was at last left behind, and a path across the fields followed.

"I took a look out here before coming to you," explained Stone, "and there ain't a soul around. I didn't get into the house, and I ain't dead sure, but the house is a prime one to hide a cuss in."

"How far is it from the old Dewey place?" questioned Kingsbury.

"The Dewey place? That's down the back road about a mile."

Kingsbury gave a nod. His blood was like fire in his veins, and yet he was watching his companion closely, still wondering if the man, for all his apparent sincerity, were truthful.

They came to a small farm-house, low and squat, hidden by a high hill and a clump of shading trees.

"There's a back window," supplied Stone, "that I fancy we can make use of."

Cautiously the two men approached the dark building, and dodging from shadow to shadow, reached the shelter of its side.

Stone nodded toward the window at the end, and Kingsbury slipped along and straightened under it. Hope was strong in his breast now. He almost believed that he was about to find his friend. But as he stood up and tried to pry open the sash, he caught a dim reflection in the dirty glass.

Like a shot he dropped to his knees, whirling about at the same moment, and the next second he had turned and plunged for his companion.

"You cur!" roared Tom. The blow, intended for him, missed completely. The he had his man down, the butted revolver wrenched from his hand.

### CHAPTER XVIII. Stone Speaks.

For a few moments the man showed

### CARE OF THE COMPLEXION —OTHER BEAUTY SECRETS— By Madame Marce

The soft, velvety complexion is the envy of every woman—and any woman can revel in one to her heart's desire if she will only discard powders and paints and give her complexion a little care. The most beautiful peach-like complexion I ever saw was that of a southern lady, and she told me this is the way she got it and kept it: Every night before retiring, she washed her face, neck and arms with plenty of soap and warm water, then used cold water and dried thoroughly with a coarse towel; then she massaged into the skin a cream lotion that she made herself by dissolving one ounce of zintone in a pint of hot water, adding a tablespoonful of glycerine. Get the zintone for fifty cents at any drug store.

Nothing mars a good complexion like hideous blackheads, and if women only knew how easy it is to get rid of them, there would be very few faces with these blemishes on them. If you are one of the unfortunates, just get about two ounces of nroxin from your druggist for fifty cents, sprinkle a little on a hot, wet sponge, rub briskly over the blackheads and wash off. You will find that every one has been dissolved away entirely.

A nice complexion and dull, lifeless, thin, scraggly hair do not hutch, so if you have any of these hair troubles and you don't want them to detract from your complexion, you would do well to give your head some attention. No better hair treatment is possible than to use a simple quinine hair tonic that you can make by mixing half a pint of bay rum, half a pint of water and adding one ounce of beta-quinol, which costs fifty cents at the drug store.

light. He struck out savagely, made a wild attempt to gain his feet, and all but succeeded.

Tom Kingsbury, however, was too far beside himself with rage and disappointment to be held in check. Out went his fist as the fellow threw him to one side and struggled to his knees.

With a groan the man went down. He attempted to rise, and the next second found himself upon his feet, Tom's hand upon his collar and the revolver pressed against his side.

Until that moment when Tom had caught the dim reflection of Stone's lifted hand, revolver held by its muzzle to strike him down, he had clung to the hope that at last he was to get some trace of, possibly to find, MacLean. His disappointment left him furious and feeling little mercy. The thought that he had been tricked by such a story, as Stone had woven made him hot all over.

But it also left him determined to get at the bottom of the affair and learn who was so anxious to get him out of the way.

He flung Stone backward, yanked him straight, and shook him as a dog might shake a rat.

"You cur," he growled, "I'll have the facts out of you or know why. Stand up and talk."

Stone, his teeth chattering with the force of his shaking, uttered a wild protest.

"Stop, stop!" he cried. "You ain't got no cause to handle a bloke like that. What in — do you mean?"

Tom swung the man about, backed him against the house, and stood in front of him.

"We'll have no pretense from now on," snapped Kingsbury. "I want the meaning of your action and the name of the people who set you on. If you lie, I'll handle you harder than I have."

The fellow's eyes lifted and, if his shaking had not already impressed him with the determination of the lawyer, one look into Tom's face was enough.

Kingsbury stood towering over him, broad of shoulder, face set, eyes flashing, and a look about the firm, pressed lips that forbade trifling.

"I didn't have nothing to do with this," protested Stone.

"You had enough to do with it to attempt to brain me with your pistol. Who told you to come to me and weave that story? Come, the truth, man, or—" A threatening move to lay hands on Stone again ended the sentence and brought a cry of protest from the fellow.

"All right, speak up and I'll leave you alone. Otherwise I'll march you back to town after the worst beating

you ever had, and hand you over to the police."

A crafty light crept into the fellow's eyes. "You think that will work with me, do you," he sneered. "Well, you try it, you smart bloke. I guess I stand in with Jerry Trench, and the police dance for him. I fancy you can go and be damned," and the fellow actually started to move from the position into which he had been thrown by Tom.

Kingsbury leaped for him, flung him back against the house, and stood over him.

"Do you mean Trench set you on to me?" he roared.

"Oh, I know Trench mighty well," smiled the man.

"All right. Straight to Trench we go. He happens to be a friend of mine, and we'll see if you are lying. I want the truth of this, and I'll have it no matter who's hit."

Stone seemed to crumple up at the words. He peered intently at Kingsbury. "Jerry Trench a friend of yours?" he whispered.

"Yes, and we go to him. You march and march straight. I'll put a bullet into you if you try any funny business. I've had just about enough to be ready to do anything."

"Say," the fellow whispered, "is that on the level; Trench your friend?"

"What's that got to do with it?" But Tom realized that he had Stone on the run. "Speak up if you don't want to face Trench."

"God, he'd drive me out of town with a word if he knew I'd jumped a friend of his! What a fool! I might have known from what Spinder said that there was something in it that Trench was wise to. Say, where in — does Cruthers get off on this game?"

"You've got just one choice, and make it quick. Give me the facts or we'll go to Trench. Which will it be?"

Stone hesitated a second, his crafty eyes searching the darkness but avoiding Tom's regard.

"Say," he finally muttered, "I'll spill for you, but you've got to keep it under your hat. I guess I know when it's time to crawl. I'll give it straight if you'll let me out."

"You'll give it straight with no promise from me," snapped Tom. "More than that, you'll talk quick."

"Well," muttered Stone, and suddenly he broke into a smile, "I guess you've got the drop, and I might as well swing to your side of the fence. Facts are, Mr. Kingsbury, I don't know a thing about MacLean."

Tom suspected as much, and yet his disappointment was hard to bear. "Well, the facts," he ordered.

"Cruthers was the guy that landed me in this pickle," rushed on Stone. "I ran into him this evening and he asked me to land you at the hotel and spin you some fairy story to get you where I could put you out for the night. He said he was going out of town—I took it he wanted to beat it before you got after him—and I was to get a paper from you."

Tom considered with knit brows. "That don't go," he frowned. "I've got no paper—I—"

But suddenly he thought of his statement to Cruthers that he held the last words written by MacLean.

heavenly home. She was a faithful and loving wife and mother and will be greatly missed in the family circle. She had a large circle of friends and neighbors who also mourn her departure.

We miss them when twilight comes stealing

Along the paths that once we trod,

With tear-dimmed eyes and tender feeling

Our stricken souls cry out to God

Our prayers seem so unavailing.

Life's trials hard to understand;

But God's great love is still unfailing

And we can trust His guiding hand

Our loved ones go, our cries unheeding

Our prayers cannot bring them back.

But why our grief and all our pleading?

In God's courts that have all we lack

We miss them, but let us be cheerful

They gain what soon we shall attain

They are the best, the glad, unfeared,

Beyond all sorrow and all harm.

A. H. Nichols has an excellent picture of the 323rd regiment band, 81st division, taken in Nice, France, as they are on the march, playing at a comrade's funeral. A very excellent likeness of Mr. Nichols' son, Herbert Nichols, is in the group. No furloughs are allowed to individuals, but Mr. Nichols, in writing home, tells of several pleasant excursions of Monte Carlo and into Italy, made by the entire band.

THE reproduction below of a recent Victor full page newspaper advertisement explains why we were not able to supply your needs promptly for Victrolas and Victor Records.

## Don't blame the dealer for the shortage of Victor products — the Government needed us!

To the thousands of people who have been temporarily inconvenienced through their inability to get the Victrola and Victor Records they wanted; to Victor dealers everywhere who in the face of this extreme shortage stood loyally by us and steadfastly refused to offer inferior substitutes, we feel that an explanation is due for this scarcity of Victor products.

Upon the entrance of the United States into the great world war, the Victor Company immediately decided to do its utmost in making war materials. It voluntarily offered its entire plant wholeheartedly to the Government, regardless of the fact that its regular production would be seriously curtailed, regardless of the setback which would temporarily result to the thousands of cool years to build up, regardless of the profits which would necessarily be sacrificed.

It would have been possible to hold off—to keep right on with our regular work and let others do war work. But the Victor Company is a thoroughly American concern, and it does things in the big characteristic American way. It chose to help the Government in the very limit of its resources.

The Government recognized the high state of perfection and thoroughly modern equipment of the gigantic Victor factories, and made more and more use of them until as much as 90% of the plant was at one time engaged in war work. If it were possible to disclose Government secrets and tell of the scientific experiments which were conducted and of the devices and products which were manufactured, the public would appreciate what a valuable help the Victor plant was to the Government in winning the war.

Those parts of the Victor factories which continued to produce Victrolas and Victor Records could not, of course, supply

even a reasonable amount of Victor products to the public. And the shortage was made even more pronounced because thousands of Victrolas and still more thousands of Victor Records were diverted to the use of America's fighting forces on land and sea—to entertaining and inspiring them, as well as to teaching them French and wireless telegraphy through the Victor special study courses.

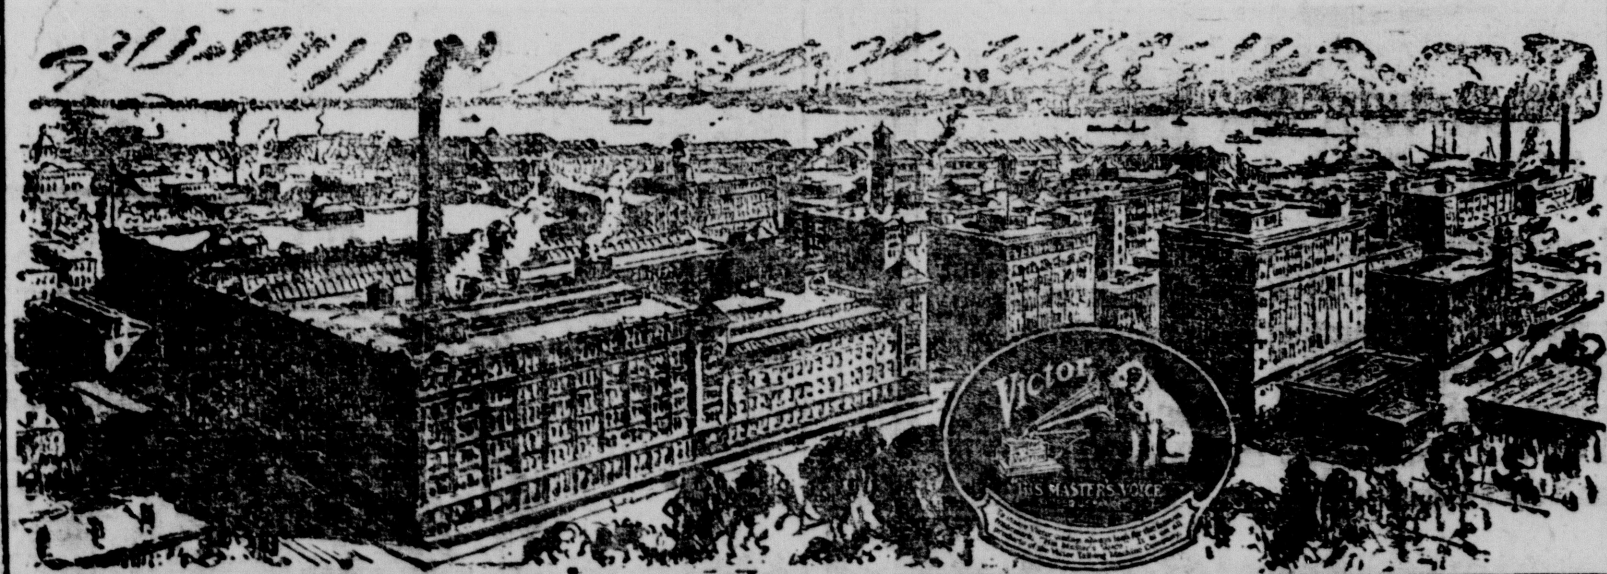

Great though the sacrifices were which the Victor Company willingly made to help its country in its hour of need, we would not have it otherwise. And though the inability to get Victor products was exasperating to the public, we do not believe they would have had us shirk our duty. We count it as honor that we were able to serve our country. We are gratified that the Government found our factories of such value.

And with the coming of peace, we recognize the great task that devolves upon us. It is imperative that we supply as quickly as possible those people who rather than accept inferior substitutes, decided to wait patiently until they could get the genuine Victor product they wanted. Added to this there is the increased demand that will come from new sources, for thousands of our returning heroes have learned to appreciate what the Victrola means in their daily lives. The demand upon our resources will be greater than ever, but we return to our chosen work with full confidence in our ability to meet the needs of the future.

So while the Victor plant did its full share in helping to win the war, it is now again bending its energies to supplying the musical needs of the nation—the of the whole world. From a gigantic bee-hive of war-time activities, the Victor plant again resumes as the greatest musical industry in the entire world.

**CUT YOUR SHOE BILLS**  
"Heretofore, soles never lasted me more than three months, because my work keeps me walking constantly on cement. But I have worn a pair of Neolin Soles now for more than three months, and judging from their present condition, they will last three times as long." So says G. L. Kerr, manager of an automobile organization in Geneva, N. Y.  
This extra wear given by Neolin Soles not only makes the shoes soled with them cheaper by the year than other shoes, but the price you pay in the first place is sometimes less than for shoes of only ordinary wear.  
You can get Neolin-soled shoes in many styles for every member of the family. Try these long-wearing, comfortable and waterproof soles on your worn shoes too. All good repair shops have them. They are made by The Goodyear Tire & Rubber Co., of Akron, Ohio, who also make Wingfoot Heels, guaranteed to outwear all other heels.

**BUDLONG**

**Disk Harrow**

THE Budlong Disk Harrow was the first center bumper disk harrow ever made—nearly forty years ago.

These bumpers take all the end thrust of each gang and place it on the two opposing centers. This allows the two sets of disk gangs to be perfectly flexible and to put in all their time digging and pulverizing the uneven surface.

To prove this, just look at the bearings of your harrow. If they are worn more at one end than the other, then it's proof positive that your harrow binds in the boxings while it is at work. Much of its penetration is discounted by rigid bearings. It also causes extra draft on your team.

**The Budlong Is the Only Harrow We Know Of That Doesn't Bind In the Boxings**

Extra good blades with extra clearance underneath the weight boxes, scrapers which turn with the curve of the blade, bearings which do not clamp in the boxings and a seat set well back over the weight boxes, with a foot rest, all help to make the Budlong different from the common run of ordinary harrows. Come in and look it over.

## CORN ADVANCES, THEN WEAKENS TOWARD CLOSE

By Associated Press Leased Wire  
Chicago, Ill., March 11.—Weakness developed in the corn market today after a moderate advance. The initial strength resulted from assertions that any possible prospects of any price on hogs had been dispelled. Opening prices, which ranged from the same as yesterday's finish to 1½c higher with May \$1.53½, to \$1.36½ and July \$1.29½ to \$1.30, were followed by a material setback all around.  
Oats like corn receded after a minor upturn. Buying was of only a scattered sort. The market opened unchanged to ¼c higher, with May 63½ to 64c and then sagged well below yesterday's close.  
Radically higher quotations on hogs lifted provisions. Maximum gains were the rule.  
Reports of a long shoreman's strike at New York counted as a depressing influence, but the market later rebounded hard when the reports were denied. Prices unsettled, ½c net lower to 2½c advance, with May \$1.36½ to \$1.37½ and July \$1.31½ to \$1.31½.
